

Veronica Eulenberg

Software Engineer

I have 6 years of work experience in software development. I thrive where I am able to troubleshoot and collaborate on customer solutions. I love to fix and customize user-focused, responsive-design and cross-browser compatible products.

Seeking to work with professionals that have a positive attitude and a good sense of humor.

Experience

Software Engineer • Freelance • Remote • 3/2021 - Present

- Ported apps between platforms: Chrome plugin -> website, WordPress -> Hugo.
- Collaborated on UI/UX design in cross-functional teams.

Data Annotator • Moveworks • Remote • 8/2021 - 4/2023

- Developed JavaScript programs (bookmarklets) to make annotation faster.
- Manipulated data in Google Sheets with formulas and functions.

Front End React Engineer • LifeOmic • Remote • 3/2021 - 6/2021

- Collaborated on app design weekly at UI/UX (User Experience) meetings.
- Built a customer support app to help with solving 40+ technical tickets a day.

Front End React Engineer • MX • Remote • 5/2020 - 9/2020

- Maintained documentation with JIRA, Confluence, and GitHub.
- Prepared 5+ designs for complex bug fix meetings in cross-functional team.

Full Stack React Engineer • JustUtahCoders • SLC, UT • 9/2019 - 9/2020

- Built developer tool for junior developers to see PDF parsing results 50% faster.
- Added UI for complex SQL queries that aggregated user data from forms.

WordPress Engineer • J.F. Web Dev • Remote • 2/2017 - 1/2021

- Developed 15+ sites to comply with requests and enhance User Experience.
- Wrote 10+ detailed progress reports on new feature implementation.

Projects

Video Subtitle Editor

- Developed an app to edit subtitles using JavaScript, VideoJS, and Bootstrap.
- Built functionality to replay sections of video using timestamps until audio is heard.
- Created a simple UI to easily create, update, delete, upload, and download subtitles.
- Forged a dashboard to work on multiple subtitle files at the same time with ease.

Project Ticket Manager

- Built back end API in Node using Express, Passport, Mongoose, and MongoDB.
- Modified React + Tailwind front end app to ingest my CRUD and Auth APIs.
- Developed login and ticket editing and assignment functionality.
