Authorized to work in the US for any employer

## Work Experience

---

### Data Annotator

Moveworks - Remote

October 2021 to April 2023

- Automated annotation tasks with JavaScript Bookmarklets.
- Manipulated data in Google Sheets with formulas and functions.
- Categorized, tagged, labeled, and evaluated 60+ user queries an hour.

### Mobile Engineer

LifeOmic - Remote

March 2021 to June 2021

- Built an internal customer support app with Material UI, React, Axios, Apollo, and GraphQL.
- Answered 40+ technical tickets a day to solve customer issues.
- Contributed to app design 10+ times at weekly UX (User Experience) meetings.

### Full Stack WordPress Developer

J.F. Web Development - Remote

February 2017 to January 2021

- Collaborated remotely boss through Skype and Gmail for 3 years
- Talked with tech support and solved hosting issues in under an hour
- Developed 5+ WordPress/WooCommerce sites with Beaver Builder page builder and CSS
- Modified 10+ websites with HTML, PHP, CSS, JavaScript to comply with client specifications
- Used WordPress hooks, plugins, PHP, and JavaScript to enhance User Experience
- Wrote 10+ detailed progress reports on new feature implementation
- Wrote MySQL queries in PHPMyAdmin to see if data exists when it disappears from front end
- Transferred 20+ domain names between HostGator, BlueHost, 1&1, and GoDaddy

## Front End Engineer

MX - Remote

May 2020 to September 2020

- Fixed 50+ bugs with CSS, JavaScript, ReactJS.
- Lead 3+ meetings with 2-5 coworkers.
- Prepared 5+ designs for complex bug fix meetings with other developers.
- Tested with Firefox, Chrome, Safari, Internet Explorer 11 with VirtualBox, and mobile.

## Front End Developer

801 Labs - Salt Lake City, UT

December 2019 to February 2020

- Collaborated and Conducted meetings in person and through Slack chat, we talked about what needed to be displayed, set deadlines, and checked in with each other about progress
- Built and designed new site using current visual trends. Styled with Bulma CSS framework and developed with Hugo website builder framework
- Used Meetup API to display upcoming events. Styled with Hugo CSS tags, built with plain HTML, and made the AJAX call with jQuery
- Version controlled by creating pull requests to GitHub using command line GIT

## Full Stack React Developer

Just Utah Coders - Salt Lake City, UT

October 2019 to February 2020

- Helped teammate with ReactJS implementation
- Collaborated with team on structure of data parser that brings in JSON from PDF docket
- Built developer tool with pretty UI for junior devs to display PDF docket data with button; before we had to get the data manually with command line, it took too much time
- Fixed mobile scroll menu to show all menu items, I'm UI and UX focused, see!
